

SHIVAM SOURAV SOURAV JHA

B.Tech. - Electronics & Communication Engineering

Ph: +91-7762827770

Email: 2019145@iiitdmj.ac.in

Patna, Bihar, India - 800014

BRIEF OVERVIEW / CAREER OBJECTIVE / SUMMARY

I am a software developer and my main focus is on solving question-based upon any technology or tech-stack used. I am looking for a career that could keep me motivated to wake up the next day.

KEY EXPERTISE / SKILLS

Node.js MongoDB SQL ReactJS Machine Learning Deep Learning AWS PostgreSQL Python CPP Javascript
Redis Neo4j Data Science

EDUCATION

Indian Institute of Information Technology, Design and Manufacturing, Jabalpur

2019 - 2023

B.Tech. - Electronics & Communication Engineering | CGPA: 7.70 / 10.00

LBS

2017

Diploma | Diploma - PCM | CBSE | Percentage: 90.00 / 100.00

CPS

2015

10th | CBSE | CGPA: 10.00 / 10.00

INTERNSHIPS

Stargate Club

June 7, 2021 - Present

Software Developer Intern

Key Skills: Node.js SQL Bitbucket MongoDB AWS

- Worked On backend using Nodejs,AWS,for making APIs.
- Understood the workflow of a R2C platform and understood the functioning of technology used.

Truckapp.ai

April 5, 2021 - June 5, 2021

Mobile Backend Development Intern,

Key Skills: AWS Python

- Supported the backend time by completing the task efficiently in 40% of the allotted time. Also wrote the OTP API and some major core APIs.
- Quickly learnt and worked on Serverless Framework, decreasing the team's workload to focus on front-end, used AWS and dynamo DB.

Sewakar

Jan. 13, 2021 - March 25, 2021

Full Stack Developer Intern

Key Skills: MongoDB Deployment NodeJS ReactJS

- Decreased the deployment costs by 60% by the use of affordable alternatives.
- Made frontend in React following the design by UI team.
- Made the backend from scratch alone.

PROJECTS

Lightning-McQueen

A platform to connect customers to serviceman(plumbers, technicians etc).

- A group project made via MERN and deployed in Heroku for a certain period of time.
- HTML, CSS, JavaScript, React, Nodejs, MongoDB was used to build the website, my major role was in setting the structure for the front-end and making the entire backend
- The most important thing learnt was Time management and systematic flow of work.
- Link- <https://github.com/shivamsouravjha/Lightning-McQueen>

MemeYogi

March 10, 2021

Key Skills: Node.js MongoDB Express

- Built an engaging platform for sharing memes from scratch using Node.js.
- The backend can support any frontend web or android.
- Data Integrity and security of data ensured.
- Link to the repo: https://github.com/shivamsouravjha/Meme_Yogi
